Description**Steps:**

1. Open the Google Chrome browser
2. Type in the URL bar "<https://shemsvcollege.github.io/Trivia/> "
3. Click on "Start" button
4. Type a question with 50 characters (not include a question mark) "Nam quis nulla. Integer malesuada. In in enim a ar?" in 1st question field
5. Click on "next" button

Expected Result:

The question we wrote will appear in the typing field and clicking the "next" button appears Web page : " Please enter 4 possible answers and Mark the right one!
question number: 1 "

Actual Result:

The content of the field is deleted

Notes:

I also tested a 50 character question with a question mark,
50 character question without question mark, 49 character question with question mark.

The bug disappears only in a question with exactly 49 characters without a question mark.

There is a bug in the 3 questions
